

LESS TIME MORE PROFIT

The V3D Lite

- Set-up and reading in under 3 minutes
- User friendly operation
- Results recorded and printed
- Compatible with a wide range of lifts
- Lift packages available
- Higher productivity means higher revenue

.....and the system is backed up with training, after-sales service and technical support!

The way to alignment profit

Utilizing patented imaging technology, the V3D Lite provides accurate, real-time measurements - reducing setup and measurement times while generating serious productivity benefits. Matched with easy-to-use software, the John Bean V3D Lite wheel aligner will have your technicians getting readings in a matter of minutes.

Speed + Accuracy = Profitability!

Eliminate customer comebacks
Make alignment your most profitable service

Less time to obtain readings
+ reduced correction times
= Faster, more accurate alignments!
